RICA C. FERNANDO

Cagayan, PH | github.com/bluerics
(Smart) +63 9982767503 | callosrica@gmail.com

OBJECTIVE

A Computer Engineering student dedicated to solving complex problems through the use of technology. Committed to applying technical skills in system design, data management, and the creation of practical and scalable solutions, with strong focus on efficiency, innovation and continuous learning.

EDUCATION

Cagayan State University – Carig
Bachelor of Science in Computer Engineering
Expected 2027

- Relevant Courses: Machine Learning, Web Development, Software Engineering, Project Management, Web Security, Computer Network, Circuit design

PROJECTS

- SCARF– Embedded System
- Custom regulated Power supply
- Vetconnec:t Real- Time Veterinary Scheduling Portal
- Custom PIC Development Board

LEADERSHIP & SOFT SKILLS

- .Club officer- Programming, Physics and Mathematics
- Former Club officer- Micro Software Development Club
- Time Management & Responsibility
- Analytical & Critical Thinking
- Adaptability & Willingness to Learn
- Professional Work ethics & Teamwork

TECHNICAL SKILLS

Computer programming

- Python ,C/C++,basic Java, HTML, CSS, SQL,Tailwind,Javascript

Embedded System Development
Web Development
Troubleshooting of hardware system
Breadboarding and Circuit Design

CERTIFICATIONS AND SEMINARS

- Civil service Eligibility – Professional level
- Frontiers of Computer Engineering: 2025 International Conference on New and Emerging Technologies
- Regional Convention 2025: General Assembly and 9th CPE Challenge

ADDITONAL INFORMATION

Interest: Web Application Development, Embedded Systems and IoT Development, UI/UX Design, Software and Hardware Integration
Language: English (Fluent), Filipino (Native)
